Education

- Sandip University , Nashik** 2022–2026
Bachelor of Technology — Computer Science and Engineering
- Indirabai Lalwani Junior College Jamner, Maharashtra State Board** 2022
Secondary Examination

Experience

- TchnoHacks Solutions Pvt. Ltd.** Oct 01-2025 – Oct 31-2025
Data Science Intern Nashik
 - * Completed a 1-month Data Science Internship at TechnoHacks Solutions Pvt. Ltd., gaining practical exposure to real-world data science concepts and industry workflows.
 - * Collaborated with industry professionals to enhance analytical, problem-solving, and technical skills in the field of Data Science during the internship program.
- Codec Technologies Pvt. Ltd.** Dec 2025 – Jan 2026
Business Analyst Intern Mumbai
 - * Analyzed and transformed large datasets using SQL and Excel; developed Power BI dashboards to visualize KPIs like revenue growth, market share, and customer acquisition trends for business stakeholders.
 - * Collaborated with cross-functional teams to identify performance gaps and deliver data-driven recommendations that improved operational efficiency.

Personal Projects

- Global EV Market Insight and Sales Analysis Dashboard**
 - * Developed an interactive EV Market Analysis Dashboard in Power BI featuring global sales analysis, market trends, KPI tracking, and geographical insights through an interactive world map visualization
 - * Utilized DAX queries, data modeling, and relationship management to build dynamic measures, calculated columns, and year-wise performance analysis for effective business intelligence reporting.
 - * Created advanced visual reports including sales trends, YoY growth, BEV vs PHEV comparison, market share analysis, and powertrain distribution dashboards to support data-driven decision making.
- IPL Data Analysis using Python**
 - * Performed comprehensive IPL Data Analysis using Python, Pandas, Matplotlib, and Seaborn to extract insights on team performance, player statistics, toss impact, batting records, and bowling performance.
 - * Analyzed large IPL datasets by applying data cleaning, grouping, aggregation, and visualization techniques to identify top-performing teams, players of the match, highest run scorers, and leading wicket takers.
 - * Built insightful visualizations and statistical reports to understand match trends, win percentages, and player contributions, improving data interpretation and analytical decision-making skills.

Technical Skills and Interests

Languages	SQL, Python
Developer Tools	Visual Studio Code, Microsoft Power BI
Frameworks	Pandas, NumPy, Matplotlib
Cloud / Databases	SQL, Microsoft Excel
Coursework	Data Analytics, ETL, Business Intelligence Tools
Areas of Interest	Data Analytics, Business Analysis

Certificate of Participation

- SUNHACKS 2K25 – International Hackathon Participation
- INKSIGHT 2025 Workshop Participation

Achievements

- AI Dashboards using Microsoft Power BI — Certified Workshop, Skill Nation
- Automated Data Cleaning for improved workflow efficiency
